Forecast for Wednesday 22 Mar 2023

Weather: Frequent showers, turning to sleet and snow during the morning. Drier into the afternoon with plenty of sunny spells and just the odd shower. Mainly clear skies during the evening but clouding over from the south with further rain later. Very strong southwesterly winds easing through the afternoon.

Chance of cloud-free hill tops above 800m: 10% increasing to 70-80% during the afternoon, falling to 20% late evening.

Low Cloud and visibility: Extensive low cloud, base 500-700m, in association with the rain and frequent showers, and poor visibility. Scattered low cloud base 600-800m with any showers during the afternoon and drops in visibility. Otherwise patchy high base cloud and good visibility for much of the afternoon and evening. Extensive low cloud once again on the rain band.

Met Office Aberdeen Meteorologist's View
Strong gale force winds through much of the day but improving during the afternoon giving a more pleasant feel with increasing sunny spells.

Forecast for Thursday 23 Mar 2023
Weather: Low cloud and rain or sleet during the early hours of Thursday, clearing to leave dry and sunny conditions to start the day. Scattered showers then expected for much of the rest of the day before clearing into the evening.

Maximum wind: Southwesterly 20-25 mph.

Chance of cloud-free hill tops above 800m: 10-20% during the early hours, briefly increasing to 80% by dawn but decreasing again to 20-30% through the morning. 90% during the evening.

Low Cloud and visibility: Low cloud, base 500-700m, and moderate or poor visibility at first and in association with the showers later. Good visibility in dry spells.

Temperature: **Glens:** Plus 5 rising to plus 9 Celsius.
At 800m: Minus 1 rising to plus 1 Celsius.
Freezing level: 800-1000m.
